

Hi,

My class list shows that you are enrolled in my section (Section 001) of MAT 194 for the Spring. Welcome!

There are a couple of things you should do before you come to class on Tuesday.

First, you should read over the Syllabus for the course and print a copy of it for your use. It can be found on the class website (<http://toperkin.mysite.syr.edu/spr10.html>) or on Blackboard (<http://blackboard.syr.edu>) under Course Information. To access Blackboard you should use your SU userid and your usual SU password.

Second, you need to create an account on WebAssign so you can do the online homework for this class. Indeed, all homework for this course will be done online. Because homework will be assigned on Tuesday, it is important for you to **create your WebAssign account before you come to class on Tuesday**. Here are the details:

WebAssign: You will need to create your WebAssign account at <http://www.webassign.net> in order to submit your on-line homework. You will "self enroll" into this section (Section 001) of MAT 194 by using the following class key: syr 8075 4765. You should set up your account using your SU username and email address.

You will also need to enter an "access code" to continue using WebAssign. If you purchase a new textbook at the SU bookstore, it will come with an access code.

If you purchase a new textbook elsewhere or a used textbook, you will need to purchase your access code separately. This can be done on-line with a credit card through WebAssign or you can purchase an access code at the SU bookstore.

I'm glad to have you in my class and look forward to seeing you on Tuesday.

Tony Perkins
